

HOOK

BEFORE INSTALLING

Read entire hook installation instructions. Observe all local building and safety codes. For the following installation instructions, it is assumed that any old fixtures have been removed and any repairs to the door or wall have been completed.

INSTRUCTIONS

Unpack and inspect the product for any shipping damages. If you find damages, do not install. Contact Customer Service at 1.855.715.1800. If you need assistance or have questions while installing your hook, contact Customer Service.

We recommend consulting a professional if you are unfamiliar with installing hardware fixtures. Signature Hardware accepts no liability for any damage to the wall or door, or for personal injury during installation.

TOOLS AND MATERIALS:

Pencil

Drill

Safety Glasses

Tape Measure

Screwdriver

FRONT MOUNT INSTALLATION

1. Use a tape measure to determine the hook mounting location.

Note:

For wall installation, mount the hook into a wooden stud. If stud is unavailable, you must use a wall anchor.

For door installation, be sure not to drill completely through the door.

2. Hold the hook in place, ensuring it is level, and mark the positions of the mounting holes with a pencil.

3. Drill pilot holes in the locations marked in the previous step.

4. Hold the hook in position and insert the screws through the hook mounting holes, into the pilot holes. Tighten the screws with a screwdriver until the hook is secure.
